

# COVID-19 Risk Assessment

This Risk Assessment was written in response to The guidance for Full Opening: Schools published on 2<sup>nd</sup> July 2020.

<https://www.gov.uk/government/publications/actions-for-schools-during-the-coronavirus-outbreak/guidance-for-full-opening-schools>

## Attendance expectations

It is vital for all pupils to return to school to minimise as far as possible the longer-term impact of the pandemic on pupils' education, wellbeing and wider development.

The usual rules on school attendance will apply, including:

- parents' duty to secure that their child attends regularly at school where the child is a registered pupil at school and they are of compulsory school age;
- schools' responsibilities to record attendance and follow up absence;
- the availability to issue sanctions, including fixed penalty notices in line with local authorities' codes of conduct.
- **There may be exceptional circumstances in which some level of restriction to education or childcare is required in a local area. In those situations, restrictions will be implemented in a phased manner, the key aim being to retain as much face-to-face education and access to childcare as possible. These 'tiers of restriction' will ensure that extensive limitations on education and childcare are a last resort, and that priority is given to vulnerable children and children of critical workers for face-to-face provision in all cases. At 'tier 4', Primary schools will limit attendance to just vulnerable children and children of critical workers. Where there are no local restrictions in place, education provision should continue to remain fully open to all, and these tiers do not apply.**
